Education Experiences

2025.09 - 2027.03 **The University of Hong Kong** **MSc: Master of Data Science**

2021.09 - 2025.06 **Nanjing University of Science and Technology** **BEng: Data Science and Big Data Technology**

Research Publications Agent System, Trustwrothy AI, VLM, Knowledge Distillation

AAAI 2026 Multimodal Robust Prompt Distillation for 3D Point Cloud Models

- **(1st author)** Multi-Modal Prompt Distillation, Vision-Language-Model

IEEE T-IFS QuEST: Quantization-conditioned Efficient Stealthy Trojan

- Trustwrothy AI, Model Quantization, Backdoor Attack

ICCV 2025 CIARD: Cyclic Iterative Adversarial Robustness Distillation

- Multi-modal learning, knowledge distillation, and adversarial attack & defense.

ECAI 2024 Dynamic Multi-Modal Prompt Tuning: Boost Few-shot Learning with VLM-Guided Point Cloud

- **(1st author)** Foundational Model, Vision-Language Model, Multi-modality, Few-shot, 3D Vision

Upcoming (Agent System Robustness, Physical AI Attack, 3D CV)

- DREAM: Dynamic Red-teaming across Environments for AI Models
- SQUIRL: Skill-Evolving Runtime Defense for Safe and Useful Tool-Using LLM Agents
- E2AT: Multimodal Jailbreak Defense via Dynamic Joint Optimization for Multimodal Large Language Models
- CAMEL: End-to-End Watermarking for Generative 3D Gaussian Splatting under Joint Copyright Ownership

Internship Experiences

2026.04 - Present **Amber Group / AI Research Intern / Hong Kong** **Agentic Finance / Nasdaq: AMBR**

- Built Multi-Agent Long Task Control Layer across Web & Lark,powering swarm inference over 40 different agents, serving 200+ people in company, with 1 envolving Agent System.
- Built tools across Centaur,cc-connect,Weknora, OpenClaw, Dify, and n8n for AI transformation
- Established enterprise-agent evaluation from task decomposition and failure analysis

2025.10 - 2026.04 **NOVOAI / LLM Full-Stack Intern / Hong Kong** **HKSTP AI Startup / English Team**

- Building LLM agent systems tailored for insurance companies in Healthy Area.
- Implemented a Clerk-Auditor architecture separating execution from independent verification, producing evidence-grounded and auditable analysis and adjudication outputs.

2024.08 - 2024.11 **Himalaya Science and Technology / AI Data Development Intern** **Tencent Music Ecosystem**

- Built multilingual-TTS multimodal data pipelines, quality SOPs across collection, generation, scripts, and AI-output evaluation, supporting voice, expression, and motion data production.

2024.05 - 2024.06 **Luxshare Precision / Project Management Intern** **Fortune Global 500 / Apple Product**

- Supply Chain Quality Management Department for APPLE Watch through NPI-to-MP; coordi nated RFQ, customer report, failure analysis, and DOE across engineering and quality teams.

2023.01 - 2025.08 **Research Assistant at NanJing University of Science and Technology** (paid part-time intern)

Technical Core & Bouns

- Agent Systems: A2A, MCP(agenthub), Centaur /cc-connect(Shared AI agents for teams) , Agenthub, Long-horizon orchestration, agent evaluation, RAG: OpenViking/Weknora, AgentHub, OpenClaw, Dify, N8N, LangChain

CRYPTO-NATIVE & VENTURE 7+ YEARS ON-CHAIN / 1,000+ TRANSACTIONS ACROSS 100+ CONTRACTS

- iloveyou1314.eth with hands-on EVM, smart-contract, and DApp knowledge. Blockchain Basics / Dapps(Coursera The State University of New York); Smart Contracts (Coursera University at Buffalo) ;
- E/ACC: Invested VastSpace(Series A); FortyTwo(Seed Round); Apptronik(Series B); NEURA Robotics (Series C)
